

Help prevent litter in the Cooks River!

Show your support for a nationwide campaign for cash deposits on beverage containers to help reduce litter and waste.

The nation's environment ministers are meeting in June to make decisions about packaging regulation, including possible introduction of a nationwide Container Deposit Scheme (CDS). CDS has proven successful in greatly reducing litter and promoting resource recovery around the world, including in South Australia for the past 35 years. Let's show the ministers we want it here too!
