Message:

The Premier  
Mike Baird

Please view attached photos being a few selected shots of the thousands of plastic bottles washed up on banks of the Cooks River. As part of a Community Group I have been involved in clearing bottles from the banks of the river for over 10 years. The sheer quantity of bottles gives emphasis to the need for a system such as a refund on bottles and other containers to address this problem. If these bottles were not washed onto the banks they would remain in the river with many being washed into the sea impacting negatively on our environment and marine life.  
Your Government's support and action to introduce a container deposit scheme can and will make a difference. Thank you for considering my representation.  
Sincerely  
Mike Aldridge

I would like a response: Yes, I would like a response
